FORTHCOMING

1. Call to Order/ Roll Call

The meeting was called to order by Village President John Jeffords at 7:00 PM. A quorum of the Village Board was present. Present: Village Board of Trustees; Bill Collins, Tom Wolff, and Rock Brandner.

Excused Absence: Trustee Dan Neu

Also present: Village Administrator Jim Healy and Deputy Clerk Donna Cox

2. Verification of Compliance with Open Meeting Law

Village Administrator Healy verified that the meeting was posted per statute at three local post offices and at the Village Hall. Digital copies of the agenda were sent to the West Bend Daily News, Germantown Express News, Hartford Times Press, and the Milwaukee Journal Sentinel.

3. Pledge of Allegiance

4. PUBLIC COMMENTS:

Jeff Gonyo, 2668 STH 164, (regarding Item 9b.) Mr. Gonyo stated there was a conflict of interest being that President Jeffords worked for Payne and Dolan. Mr. Gonyo stated that Danah Zoulek of Scenic Pit, LLC was sweeping the road as required by the DNR.

Paul Craig, 501 Scenic Road, (regarding item 9b.) Mr. Craig asked the Board to continue following through with any litigation regarding Scenic Pit, LLC. Mr. Craig stated that the money being spent on litigation will be nothing compared to the millions that could potentially be spent if the groundwater gets polluted by potential contaminations caused by the Scenic Pit LLC.

Danah Zoulek, 609 Scenic Road, (regarding item 9b) Ms. Zoulek criticized Mr. Healy's emails to the DNR regarding the accident she was in a few weeks back. Ms. Zoulek stated that it is inappropriate to place blame regarding the accident and that the State should be the ones to investigate and make that decision and to not place the blame on her or Scenic Pit. Ms. Zoulek asked the Board to help her gain access to "haul road", lower the speed limit, and to place signage on the road.

Marilyn Craig, 501 Scenic Road (regarding item 9a) Mrs. Craig stated that the Scenic Pit causes an economic impact by loss of property values. Ms. Craig stated that the purchase of their home was their most significant investment and their hopes were to enjoy their home and property in a nuisance free manor and free from dust.

Don Seib, 1639 Hillside Road (regarding item 9a) Mr. Seib stated that the pit was there first, and individuals should have thought about that before moving there. Mr. Seib stated that taxpayers dollars would be better spent on paving roads.

5. CONSENT AGENDA

- a. Vouchers for Payment
- b. Treasurer's Report
- c. Meeting Minutes: May 21, 2020 – Regular Meeting
- d. Applications for New Operator's Licenses
- e. Renewal Operator's License Applications
- f. Alcohol Beverage License Renewal Applications

- g. Unenclosed Premises Permit Renewal Applications
- h. Coin Operated Machines License Renewal Applications
- i. Cigarette and Tobacco Products License Renewal Applications
- j. Target and Trapshooting License Renewal Applications
- k. Temporary "Class B" and Class "B" Picnic License – Richfield Historical Society, Art at the Mill
- l. Letter of Credit Reduction for Highland Ridge Subdivision
- m. KT Kayak Rentals Agreement for Public Boat Launches

Motion by Trustee Wolff to approve the Vouchers for Payment, Treasurer's Report, Minutes of the May 21, 2020 Regular Meeting, Applications for New Operator's Licenses per the attached list, Applications for Renewal Operator's Licenses per the attached list, Application for a Temporary Class B Picnic License for Richfield Historical Society, Applications for Renewal of Alcohol Beverage Licenses per the attached list, Applications for Renewal of Unenclosed Premises per the attached list, Applications for Renewal of Coin Operated Machine Licenses per the attached list, Applications for Renewal of Cigarette and Tobacco Products Licenses per the attached list, Applications for Renewal of Target and Trapshooting Licenses per the attached list, Letter of Credit Reduction for Highland Ridge Subdivision and Rental Agreement with KT Kayak Rentals; Seconded by Trustee Brandner; Motion passed without objection.

6. PUBLIC HEARING

Village President Jeffords read aloud the Public Hearing.

Jim Healy introduced item 7a.

Motion by Trustee Wolff to Open the Public Hearing for item 7a; Seconded by Trustee Brandner; Motion carried unanimously by voice vote.

- a. Discussion regarding the annual adoption of "Weights and Measures" pursuant to Chapter 363

Public Hearing Comments: No Comments

Motion by Trustee Wolff to Close the Public Hearing for item 7a ; Seconded by Trustee Brandner; Motion carried unanimously by voice vote.

7. DISCUSSION/ACTION

- a. **Discussion/Action regarding the annual adoption of "Weights and Measures" pursuant to Chapter 363**

Motion by Trustee Collins to approve the assessed weights and measures fees and direct Staff to administer the licensing process per Chapter 363 of the Village Code; Seconded by Trustee Brandner; Motion passed without objection.

- b. **Discussion/Action regarding a potential Ordinance Amendment to allow "Restaurants, Standard" as a "Permitted Principal Use" in the Village's business zoning districts**

Jim Healy introduced item 7b. In the Village, this would make Restaurants a Permitted Principal Use in all business zoning districts.

Motion by Trustee Brandner to authorize Staff to prepare an Ordinance amendment and schedule a Public Hearing for July 23, 2020 to consider "Restaurants, Standard" as a Permitted Principal Use in the [Insert desired Zoning Districts to be considered (B-1, B-2, B-3, B-4, and B-5)] and to incorporate the definition thereof into Section 70.12 of the Zoning Code; Seconded by Trustee Collins; Motion passed without objection.

- c. **Discussion/Action regarding a petition for a Reserve "Class B" Alcohol Beverage Retail License, Unenclosed Premise Permit, and Coin Operated Machine License for PERSEVERANCE CORP. d/b/a Badger Burger Company, located at 1872 STH 175 (Tax Key: V10_030000Z)**

Motion by Trustee Collins to Conditionally Approve the petitioned Unenclosed Premise Permit, Coin Operated Machine License, and Reserve "Class B" Alcohol Beverage Retail License for PERSEVERANCE CORP. d/b/a Badger Burger Company located at 1872 STH 175 (Tax Key: V10_030000Z) subject to the following Specific Conditions of Approval:

Specific Conditions of Approval:

1. The Village Board approve the proposed Ordinance Amendment considered on June 18, 2020 related to "Restaurant, Standard" to allow the "use" as being a Principal Permitted Use.
2. The Plan Commission conditionally approve the Plan of Operation for Badger Burger Company.
3. The petitioner receives all necessary permits from the Building Inspection Department, Richfield Volunteer Fire Company, and Washington County for the service of food/drink;

Seconded by Trustee Wolff; Motion passed without objection.

8. CLOSED SESSION

President John Jeffords read items 9a and 9b aloud.

- a. **Discussion / Action to enter into Closed Session under Wis. Stats. 19.85(1)(e) deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session. – Intermunicipal agreement for a regional Transportation Impact Analysis (TIA)**
- b. **Discussion /Action to enter into Closed Session under Wis. Stats. 19.85(1)(g) conferring with legal counsel for the governing body who is rendering oral or written advice concerning strategy to be adopted by the governing body with respect to litigation in which it is or is likely to become involved. – Case No. 2015CV000374 Scenic Pit LLC. v. Village of Richfield, et. al. (2019AP718)**

Village of Richfield
4128 Hubertus Road, Hubertus, WI
Village Board Meeting Minutes June 18, 2020
7:00 pm

Motion by Trustee Wolff to enter into Closed Session pursuant to Wisconsin State Statutes, Section 19.85(1)(g) and 19.85(1)(e); Seconded by Trustee Brandner; Motion carried unanimously by voice vote.

9. RECONVENE IN OPEN SESSION

Motion by Trustee Collins to Reconvene in Open Session; Seconded by Trustee Wolff; Motion carried unanimously by voice vote.

a. **Discussion/Action regarding matters addressed in Closed Session outlined above.**

None.

10. ADJOURNMENT

Motion by Trustee Wolff to adjourn the meeting at 9:07 PM; Seconded by Trustee Brandner; Motion carried unanimously by voice vote.

Respectfully Submitted,

Jim Healy
Village Administrator

3. Pledge of Allegiance

4. PRESENTATION:

a. Washington County Highway Commissioner Scott Schmidt – Intersection of Hillside Road and CTH Q

Mr. Schmidt provided information to the Village of Richfield regarding CTH Q and Hillside Road Intersection and the need for a potential roundabout at this location. Mr. Schmidt discussed partnering in funding between the County, Town of Lisbon and the Village of Richfield to cover the cost of the proposed project. Additional topics discussed included but were not limited to: History and Past Improvements in and around the area of this intersection, Intersection Safety Analysis, Safety and Operational Analysis, TADI Report Conclusions, Project Schedule and Project Funding. The amount the County is seeking is 2.5% of the total cost or approximately \$45,000.

b. Richfield Volunteer Fire Company Fire Chief Tony Burgard – Operations Report for 2020

Chief Burgard shared data and information from the Richfield Volunteer Fire Company Operations Report for 2020. Data and topics discussed included but were not limited to, current total number of full-time members, part-time members, paid on call members, total calls for EMS and Fire, occurrences / types of calls responded to throughout the community and Chief Burgard spoke of the huge outpouring of support from the community regarding the donation of personal protective equipment during this COVID-19 pandemic.

5. PUBLIC COMMENTS:

Brian Farrow, 639 Jordan Circle (regarding item 8e) Mr. Farrow is in favor of lowering the speed limit.

Paul Craig, 501 Scenic Rd (regarding item 8e). Mr. Craig stated that Richfield is a community of rural roads and the need for a lower speed limit did not exist until the traffic increased coming in and out of the Scenic Pit. Mr. Craig asked that the Board continue with the litigation process as it pertains to Scenic Pit, LLC.

Gary Henke, 3289 Willowgate Pass (regarding item 8e) Mr. Henke is in favor of lowering the speed limit.

6. CONSENT AGENDA

- a. Vouchers for Payment
- b. Treasurer's Report
- c. Applications for New Operator's Licenses
- d. Rejection of bids for Fireman's Park tennis court reconstruction
- e. Rebound program through R&R Insurance/LWMMI

Motion by Trustee Neu to approve the Vouchers for Payment, Treasurer's Report, Applications for New Operator's Licenses per the attached list, Rejection of bids for Fireman's Park Tennis Court Reconstruction Project and Rebound Project with R&R Insurance / LWMMI; Seconded by Trustee Wolff ; Motion carried without objection.

7. PUBLIC HEARING

Village President Jeffords read aloud the Public Hearing.

Motion by Trustee Wolff to Open the Public Hearing for item 7a; Seconded by Trustee Brandner; Motion carried unanimously by voice vote.

Jim Healy introduced item 7a. "Restaurants, Standard" a Permitted Principal Use in the B-5 zoning district. Currently, this type of use is permitted in all business zoning districts.

- a. **Discussion regarding the making of "Restaurants, Standard" a Permitted Principal Use in the B-5, Downtown Business Zoning District**

Public Hearing Comments: No Comments

Motion by Trustee Wolff to Close the Public Hearing for item 7a ; Seconded by Trustee Brandner; Motion carried unanimously by voice vote.

8. DISCUSSION/ACTION

- a. **Discussion/Action regarding Ordinance O2020-07-01, an Ordinance Amendment to Section 70.200.5(B) to allow "Restaurants, Standard" as a Permitted Principal Use in the B-5, Downtown Business Zoning District – Village Board, Petitioners**

Motion by Trustee Wolff to approve the proposed Ordinance Amendment to allow "Restaurants, Standard" as a Permitted Principal Use in the B-5, Downtown Business District; Seconded by Trustee Neu; Motion carried without objection.

- b. **Discussion/Action regarding the Reconsideration of a previously approved One-Lot Certified Survey Map (CSM) for properties identified by Tax Keys: V10_008200Z, V10_008100Z, V10_008000A – Pleasant Hill Bar and Grill, Petitioner**

Motion by Trustee Neu to approve the proposed One-Lot CSM for Pleasant Hill Management for property located at 2102 STH 164 (Tax Key: V10_008200Z, V10_008100Z, V10_008000A) subject to the following General Conditions of Approval:

General Conditions of Approval:

1. Staff and Governmental Approval: Subject to the developer satisfying all comments, conditions and concerns of the Village Planner, Village Engineer and all reviewing, objecting and approving bodies, which may include but not limited to the State of Wisconsin Department of Safety and Professional Services per ch. 236, Wisconsin Statutes and Ch. SPS 385, Wisconsin Administrative Code; the State of Wisconsin Department of Transportation per ch. Trans. 236, Wisconsin Statutes, and Washington County; in regard to the Final Plat, and obtaining all necessary permits and approvals, and satisfaction of applicable requirements of State, federal and Village Codes, statutes lawful orders, prior to commencing recording of the Final Plat, whichever is earlier.
2. Professional Fees: Petitioner shall, on demand, reimburse the Village of all costs and expenses of any type that the Village incurs in connection with this development, including the cost of professional services incurred by the Village (including engineering, legal, planning and other consulting fees) for the review and preparation of required documents or attendance at meetings or other related professional services for this application, as well as to enforce the conditions in this conditional approval due to a violation of these conditions.
3. Payment of Charges: Any unpaid bills owned to the Village by the subject property owner or his or her tenants, operators or occupants, for reimbursement of professional fees (as described above); or for personal property taxes; or for real property taxes; or for licenses, permits fees or any other fees owned to the Village shall be placed upon the tax roll for the Subject Property if not paid within 30 days of billing by the Village, pursuant to Section 66.0627, Wis. Stats. Such unpaid bills also constitute a breach of the requirements of this conditional approval that is subject to all remedies available to the Village, including possible cause for termination of the conditional approval;

Seconded by Trustee Brandner; Motion carried without objection.

c. Discussion/Action regarding a One-Lot CSM for property identified by Tax Key: V10_1073 – Frank and Lori Windt, Petitioners

Motion by Trustee Brandner to approve the proposed One-Lot CSM for Frank and Lori Windt for property located at 3476 S Shore Drive (Tax Key: V10_1073) subject to the following Specific and General Conditions of Approval:

Specific Conditions of Approval:

1. The applicant address, to the satisfaction of the Village Engineer, comments from his letter dated June 15, 2020.
2. The following be added to the Face of the CSM: “Lot 1 is a substandard lot and was approved by the Village of Richfield under authority of 330-11-1 of the Village of Richfield Code of Ordinances. Such parcel shall comply with all applicable regulations relating to legal nonconforming lots which may now exist, or which may be established by the Village of Richfield.”
3. The following be added to the Face of the CSM: “Lot 1 contains structures which do not comply with the setback requirements in the Village’s zoning regulations in effect on the date this certified survey map was approved by the Village of Richfield. Such structures shall comply with all applicable regulations relating to legal nonconforming structures which may now exist, or which may be established by the Village of Richfield”.

General Conditions of Approval:

1. Staff and Governmental Approval: Subject to the developer satisfying all comments, conditions and concerns of the Village Planner, Village Engineer and all reviewing, objecting and approving bodies, which may include but not limited to the State of Wisconsin Department of Safety and Professional Services per ch. 236, Wisconsin Statutes and Ch. SPS 385, Wisconsin Administrative Code; the State of Wisconsin Department of Transportation per ch. Trans. 236, Wisconsin Statutes, and Washington County; in regard to the Final Plat, and obtaining all necessary permits and approvals, and satisfaction of applicable requirements of State, federal and Village Codes, statutes lawful orders, prior to commencing recording of the Final Plat, whichever is earlier.
2. Professional Fees: Petitioner shall, on demand, reimburse the Village of all costs and expenses of any type that the Village incurs in connection with this development, including the cost of professional services incurred by the Village (including engineering, legal, planning and other consulting fees) for the review and preparation of required documents or attendance at meetings or other related professional services for this application, as well as to enforce the conditions in this conditional approval due to a violation of these conditions.
3. Payment of Charges: Any unpaid bills owned to the Village by the subject property owner or his or her tenants, operators or occupants, for reimbursement of professional fees (as described above); or for personal property taxes; or for real property taxes; or for licenses, permits fees or any other fees owned to the Village shall be placed upon the tax roll for the Subject Property if not paid within 30 days of billing by the Village, pursuant to Section 66.0627, Wis. Stats. Such unpaid bills also constitute a breach of the requirements of this conditional approval that is subject to all remedies available to the Village, including possible cause for termination of the conditional approval;

Seconded by Trustee Neu; Motion carried without objection.

- d. **Discussion/Action regarding an extraterritorial final plat for property identified by Tax Key: LSBT_0167999, Town of Lisbon – MK/S-EP, LLC., Petitioner**

Motion by Trustee Wolff to approve the proposed extraterritorial Final Plat for Haass Farms on land identified by Tax Key: LSBT_0167999 in the Town of Lisbon subject to the following Specific Conditions of Approval:

1. The applicant receives all other necessary approvals from any other approving local governmental bodies or agencies.
2. The Signature Block for the Village of Richfield Plan Commission remove “Ken Meeks, Chairman” and replace with “Jim Otto, Chairman”.
3. The Signature Block for the Village of Richfield Plan Commission remove “Donna Cox, Deputy Clerk” and replace with “Jim Healy, Clerk”;

Seconded by Trustee Neu; Motion carried without objection.

- e. **Discussion/Action regarding Ordinance O2020-07-02, an Ordinance Modifying the Speed Limits on portions of Scenic Road, Colgate Road, and Willow Creek Road – Village Board, Petitioners**

Administrator Healy stated that in order to reduce the speed limits greater than 10 MPH, the Wisconsin Department of Transportation requires a speed study be conducted to justify the decrease in speed.

Motion by Trustee Neu to approve Ordinance O2020-07-02, an Ordinance to reduce speed limits on portions of Scenic Road, Colgate Road, and Willow Creek Road; Seconded by Trustee Wolff; Motion carried without objection.

9. PUBLIC COMMENTS – No additional comments

10. CLOSED SESSION

President John Jeffords read items 10a, b and c aloud.

Motion by Trustee Wolff to enter into Closed Session at 8:35 PM pursuant to Wisconsin State Statutes, Section 19.85(1)(g); Seconded by Trustee Neu; Motion carried unanimously by voice vote.

- a. Discussion /Action to enter into Closed Session under Wis. Stats. 19.85(1)(e) deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session. – *Intermunicipal agreement for a regional Transportation Impact Analysis*
- b. Discussion/Action to enter into Closed Session pursuant to Section 19.85(1)(c) of the Wis Stats., considering employment, promotion, compensation or performance evaluation data of any public employee over which the governmental body has jurisdiction or exercises responsibility. – *Jim Healy, Village Administrator*
- c. Discussion /Action to enter into Closed Session under Wis. Stats. 19.85(1)(e) deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session. – *Intergovernmental agreement with Washington County and Town of Lisbon*

11. RECONVENE IN OPEN SESSION

Motion by Trustee Collins to Reconvene in Open Session at 9:32 PM; Seconded by Trustee Brandner; Motion carried unanimously by voice vote.

- a. **Discussion/Action regarding matters addressed in Closed Session outlined above.**

Motion by Trustee Wolff to authorize Village Staff to contract with Ehlers Public Financial Consultants; Seconded by Trustee Collins; Motion passed without objection.

12. ADJOURNMENT

Motion by Trustee Collins to adjourn the meeting at 9:35 PM; Seconded by Trustee Wolff ; Motion carried without objection.

Respectfully Submitted,

Jim Healy, Village Administrator

ORDINANCE 2020-08-03

AN ORDINANCE AMENDING SUBDIVISION SPEED LIMIT REGULATIONS
TO INCLUDE BARKLAKE ESTATES SUBDIVISION

WHEREAS, the Village of Richfield's speed limit ordinances are regulated by Chapter 351 of the Village's Code of Ordinances; and

WHEREAS, the Village desires to ensure that all roadways are regulated by speed limits; and

WHEREAS, the Village regulates speed limits to promote safety of those traversing and residing along the roadway; and

NOW, THEREFORE BE IT RESOLVED, the Village of Richfield Village Board, Washington County, Wisconsin ordains as follows:

Section 1. Section 351-45(A)(1), which is entitled "Limits decreased" is hereby amended as follows:

INSERT in Alphabetical order:

HIGHLAND RIDGE SUBDIVISION

Section 2. Effective Date

This ordinance shall be in full force and effect from and after its passage and posting or publication as provided by law.

Section 3. The several sections of this ordinance are declared to be severable. If any section or portion thereof shall be declared by a court of competent jurisdiction to be invalid, unlawful, or unenforceable, such decision shall apply only to the specific Section or portion thereof directly specified in the decision, and shall not affect the validity of any other provisions, Sections, or portions thereof of the ordinance. The remainder of the ordinance shall remain in full force and effect. Any other ordinances whose terms are in conflict with the provisions of this ordinance are hereby repealed as to those terms and conflict.

Adopted this 20th day of August, 2020

John Jeffords, Village President

VILLAGE OF RICHFIELD
 VILLAGE BOARD COMMUNICATION FORM

7a, 8a,
 and 8b.

MEETING DATE: August 20, 2020

SUBJECT: Rezoning Petition and Certified Survey Map – Endeavor Business Park 13, LLC.
 DATE SUBMITTED: August 11, 2020
 SUBMITTED BY: Jim Healy, Village Administrator

POLICY QUESTIONS: DOES THE VILLAGE BOARD WISH TO ACCEPT THE RECOMMENDATION OF THE PLAN COMMISSION TO APPROVE THE PROPOSED REZONING OF THE SUBJECT PROPERTY AND THE RELATED ONE-LOT CSM?

ISSUE SUMMARY:

Rezoning Discussion:

Endeavor Business Park 13, LLC is requesting rezoning approval for parcel V10_0008020 (pictured below right), Lot 17 of Endeavor Business Park Additional No. 1 from the current Zoning of A-1, Exclusive Agricultural District to M-4, Industrial Park District. As a part of the petition, a Certified Survey Map is proposed to combine this property with the adjacent property to the north to allow for the development of a proposed corporate office building and manufacturing facility. Artistic renderings and a proposed Site Plan for the property are included in the attachments for your convenience. The properties in question are shown together in the insert directly left and indicated by the red arrow.

The initial phase of the proposed project includes an approximate 30,000sqft 2-story corporate office facility. The corporate office will be the core of the manufacturing and future building module additions of approximately 20,000sqft per module. The full buildout for the property would be a structure that is approximately 150,000sqft. Each module is anticipated to be a separate business unit stemming from the corporate office, which is owned by the property owner, Mr. Mark G. Sellers.

The Endeavor Business Park was created in 2004-2005 with the intent of attracting manufacturing business to develop in the area and is strategically located adjacent to the State and Interstate transportation networks. The M-4, Industrial Park Zoning District, is compatible with the surrounding manufacturing land uses in the Business Park and follows the Village’s Future Land Use Map.

A Class II Public Hearing Notice has been scheduled for our August Village Board meeting on August 20th. Notice was sent to the Daily News and property owners within 300’ of the subject property the week of August 3rd. Additionally, the proposal was forwarded to the Architectural Control Committee for the business park for additional transparency purposes for circulation to other business owners in the area outside of the 300’ requirement. At the Plan Commission meeting on August 6th, the proposed rezoning was recommended to the Village Board without objection.

Certified Survey Map Discussion:

The property owner is proposing to combine two (2) properties to create a 13.365-acre parcel on the corner of Richfield Drive and Endeavor Parkway. Village Engineer Ron Dalton has reviewed the proposed CSM and his letter dated July 15, 2020 is attached herein for your convenience. The Engineer’s recommendation is for approval pending a few minor changes which he has outlined. The most significant of his comments is related to a stormwater drainage easement which is identified by number “5” on the face of the CSM. Village Staff is recommending that this drainage easement be relocated and noted as such on the face of the CSM.

VILLAGE OF RICHFIELD

VILLAGE BOARD COMMUNICATION FORM

MEETING DATE: August 20, 2020

SUBJECT: Rezoning Petition and Certified Survey Map – Endeavor Business Park 13, LLC.
DATE SUBMITTED: August 11, 2020
SUBMITTED BY: Jim Healy, Village Administrator

But if it is not, this comment will be addressed in the stormwater maintenance agreement that will be required as a part of the Site, Building and Plan of Operation review which will be forthcoming during the month of September. At the Plan Commission meeting on August 6th, the proposed one-lot CSM was recommended to the Village Board without objection.

FUTURE IMPACT AND ANALYSIS:

REVIEWED BY: _____

Village Deputy Treasurer

Initial Project Costs: Administrative
Future Ongoing Costs: Administrative
Physical Impact (on people/space): Creation of one-lot CSM for industrial development
Residual or Support/Overhead/Fringe Costs: Administrative

MEETING DATE: August 20, 2020

SUBJECT: Rezoning Petition and Certified Survey Map – Endeavor Business Park 13, LLC.
DATE SUBMITTED: August 11, 2020
SUBMITTED BY: Jim Healy, Village Administrator

STAFF RECOMMENDATION:

Rezoning

Motion to approve Ordinance O2020-08-02, an Ordinance to Rezone the subject property identified by Tax Key: V10_0008020 from A-1, Exclusive Agricultural District to M-4, Industrial Park District.

Certified Survey Map

Motion to approve the proposed One-Lot CSM for Endeavor Business Park 13, LLC. for property identified by Tax Keys: V10_0008020 and V10_0008020D subject to the following Specific and General Conditions of Approval:

Specific Conditions of Approval:

- 1. The applicant address, to the satisfaction of the Village Engineer, comments from his letter dated July 15, 2020.
2. The Village Board accept the recommendation of the Plan Commission for the petitioned Rezoning of the subject property from A-1, Exclusive Agricultural District to M-4, Industrial Park District.

General Conditions of Approval:

- 1. Staff and Governmental Approval: Subject to the developer satisfying all comments, conditions and concerns of the Village Planner, Village Engineer and all reviewing, objecting and approving bodies, which may include but not limited to the State of Wisconsin Department of Safety and Professional Services per Ch. 236, Wisconsin Statutes and Ch. SPS 385, Wisconsin Administrative Code; the State of Wisconsin Department of Transportation per Ch. Trans. 236, Wisconsin Statutes, and Washington County; in regard to the Final Plat, and obtaining all necessary permits and approvals, and satisfaction of applicable requirements of State, Federal and Village Codes, statutes, lawful orders, prior to commencing recording of the Final Plat, whichever is earlier.
2. Professional Fees: Petitioner shall, on demand, reimburse the Village of all costs and expenses of any type that the Village incurs in connection with this development, including the cost of professional services incurred by the Village (including engineering, legal, planning and other consulting fees) for the review and preparation of required documents or attendance at meetings or other related professional services for this application, as well as to enforce the conditions in this conditional approval due to a violation of these conditions.
3. Payment of Charges: Any unpaid bills owed to the Village by the subject property owner or his or her tenants, operators or occupants, for reimbursement of professional fees (as described above); or for personal property taxes; or for real property taxes; or for licenses, permit fees or any other fees owed to the Village shall be placed upon the tax roll for the Subject Property if not paid within 30 days of billing by the Village, pursuant to Section 66.0627, Wis. Stats. Such unpaid bills also constitute a breach of the requirements of this conditional approval that is subject to all remedies available to the Village, including possible cause for termination of the conditional approval.

RE: Endeavor Business Park13 LLC. Certified Survey Map (CSM) Review

Dear Mr. Healy:

We have completed our review of the above referenced CSM received on July 13th, 2020. The CSM was prepared by Ryan, Wilgreen P.L.S. of Excel Engineering, Inc. It is our understanding that the proposed Land Division is being proposed under section 330 of the Village Code.

We have the following comments and recommendations:

Sheet 1:

- Verify pipe symbology as noted
- Add borings per Village of Richfield code 330-34 A(8)
- Add existing and proposed topography per Village of Richfield code 330-34(B)
- Endeavor Business Park Addition No.1 is zoned industrial(M-4) show only the appropriate setbacks
- It is our understanding that the drainage easement along the common lot line of Lot 1 and Lot 17 is planned to be moved. Would it be reasonable to show/create the easement on this CSM?

Sheet 4:

- Remove Plan Commission Approval certificate

Submitted data has been reviewed for conformance with generally accepted surveying practices and Village policies. Although this data has been reviewed, the surveyor is responsible for the thoroughness and accuracy of survey and supplemental data and for compliance with all state and local codes, ordinances, and procedures. Modification to the survey, etc., may be required should errors or changed conditions be found at a future date.

Please contact me at our Cedarburg office (phone 262-204-2341) if you require any additional information or if you have any questions.

Sincerely,

ORDINANCE O2020-08-02

AN ORDINANCE TO REZONE THE FOLLOWING PARCEL V10_0008020 IN THE VILLAGE OF RICHFIELD AND TO AMEND THE ZONING MAP OF THE VILLAGE OF RICHFIELD PURSUANT TO SECTION 70.163 OF THE MUNICIPAL CODE

WHEREAS, the property owner, Endeavor Business Park 13 LLC., is acting as the petitioner to rezone the following parcel of land, Tax Key: V10_0008020 from A-1, Exclusive Agricultural District to M-4, Industrial Park District; and

WHEREAS, the property is proposed to be rezoned so the owner can develop the site for industrial purposes; and

WHEREAS, the Endeavor Business Park was created in 2004-2005 with the intent of attracting manufacturing businesses to develop in the area because it is strategically located adjacent to the State and Interstate transportation networks; and

WHEREAS, the rezoning petition has been submitted to the Village of Richfield Plan Commission for report and recommendation; and

WHEREAS, the required public notice of the public hearing has been provided consistent with Section 62.23 of the Wisconsin Statutes and the Village's zoning regulations; and

WHEREAS, the Village Board conducted a public hearing on August 20, 2020; and

WHEREAS, the Plan Commission has recommended to the Village Board that the rezoning change be made; and of the recommendation of the Plan Commission, having determined that all procedural requirements and notice requirements have been satisfied, having given the matter due consideration, having determined that the rezoning is consistent with the Village's Comprehensive Plan, and having based its determination on the effect of granting of said rezoning on the health, safety, and welfare for the community, and the immediate neighborhood in which said use will be located, and having given due consideration to the municipal problems involved, as well as the impact on the surrounding properties as to the noise, dust, smoke, odor and others, has hereby determined that the rezoning will not violate the spirit or intent the zoning ordinance for the Village of Richfield, will not be hazardous, harmful, noxious, offensive or a nuisance by reason of noise, dust, smoke odor or other similar factors and will not for any other reason cause a substantial adverse effect on the property values and general desirability of the neighborhood as long as the development is conducted pursuant to the following conditions and is in strict compliance with the same.

NOW, THEREFORE BE IT RESOLVED, the Village of Richfield Village Board, Washington County, Wisconsin ORDAINS AS FOLLOWS:

Section 1. Zoning Map Change

The subject property is hereby rezoned as described above and depicted in Exhibit A, attached hereto, and the zoning map of the Village of Richfield is hereby amended to incorporate the zoning of the subject property.

Section 2. Effective Date

This ordinance shall be in full force and effect from and after its passage and posting or publication as provided by law.

Adopted this _____ day of _____, 2020

VILLAGE BOARD COMMUNICATION FORM

MEETING DATE: August 20, 2020

SUBJECT: Ordinance Amendment to P-1, Parks and Recreation District – Camping Cabins in Glacier Hills Park

DATE SUBMITTED: August 11, 2020

SUBMITTED BY: Jim Healy, Village Administrator

POLICY QUESTIONS: DOES THE VILLAGE BOARD WISH TO ACCEPT THE RECOMMENDATION OF THE PLAN COMMISSION TO DENY THE PROPOSED ORDINANCE AMENDMENT?

ISSUE SUMMARY:

Washington County has proposed an amendment to allow “Camping Cabins” as a Conditional Use in the P-1, Parks and Recreation District. This legislative amendment to our Zoning Code was discussed with the Village Board on January 23, 2020. It was the Village Board’s recommendation that if the County was going to propose such an amendment that 1) it be handled as a Conditional Use and 2) it be limited to Glacier Hills Park.

On June 3, 2020 Attorney Kim Lechner, Deputy County Attorney, drafted a proposed Ordinance amendment which would do expressly what was suggested by the Village Board. Upon review, the Village Attorney had several concerns which have been previously outlined to the Plan Commission, namely that the Ordinance be drafted in a way to narrowly apply to government-owned lands and not be written in a way that could be construed to be referencing “tent camping”, which is not the intent of this proposed Ordinance. On July 14th, a revised draft of the Ordinance was put forth and reviewed by the Village Attorney. His correspondence dated July 30th is attached herein for your convenience.

Of importance, I outline the following related to this Ordinance Amendment:

- “Camping Cabins” are limited to those which are operated in conformance with Agriculture, Trade, and Consumer Protection (ATCP) 79 entitled “Campgrounds” and Department of Safety and Professional Services (SPS) 327 entitled “Camping Units”.
 - In the Village Code of Ordinances, they were previously licensed under Department of Health Family Services (HFS) 178. This language is in substantial conformance with ATCP 79.
 - SPS 327 pertains to Department of Safety and Professional Services (SPS) Administration and Enforcement, (cabin) Construction Standards, HVAC requirements, and Electrical Standards, Plumbing, and Camping Unit Transfer Tanks. When the previously constructed cabins in Glacier Hills were remodeled, these are the standards they were constructed to.
- The number of cabins has been limited to one (1) cabin per 14 acres. Glacier Hills County Park is 140-acres of land. They currently have five (5) camping cabins on the property. This would allow them to build five (5) more.
- To address the concern regarding the proliferation of these types of cabins on properties zoned P-1, Parks and Recreation, the County is proposing to limit the use to properties that are “government-owned” and zoned P-1. In the Village of Richfield, this would equate to lands owned by our community and Glacier Hills Park, only.
- To address concerns heard from the public, the County is proposing that no “camping cabin” shall be erected within 250’ of a public roadway and a minimum of 50’ from property boundary lines.

Because of the way the new (Conditional Use Permit) CUP laws have been written into Wisconsin State Statutes, the Plan Commission and the Village Board are required to hold a joint public hearing, to act in a quasi-judicial manner. Therefore, it would be inappropriate for the Plan Commission (and the same held true for the Village Board) to hear the reason “why” the County is proposing this Ordinance. But suffice it to say, it is likely we will be receiving a proposal should the Plan Commission and Village Board approve the proposed amendment.

VILLAGE OF RICHFIELD

VILLAGE BOARD COMMUNICATION FORM

MEETING DATE: August 20, 2020

SUBJECT: Ordinance Amendment to P-1, Parks and Recreation District – Camping Cabins in Glacier Hills Park

DATE SUBMITTED: August 11, 2020

SUBMITTED BY: Jim Healy, Village Administrator

In the minutes of the Plan Commission meeting from March when this matter was last discussed, a recommendation came from the Plan Commission to the Village Board for the denial of the proposed Ordinance Amendment. Of concern from the Plan Commission at that time were the following considerations:

- The draft ordinance language had not been reviewed by the Village Attorney prior to them seeing the language.
 - The draft ordinance language has now been reviewed.
- There were concerns regarding language from the previous iterations of the Code being inserted back into the text which were not consistent with the proposal. For instance, in the previous P-1, Parks and Recreation District Conditional Uses text the following language was proposed:

“Campgrounds, licensed under and operated in conformance with the requirements of HFS 178 of the Wisconsin Administrative Code that meet the following additional conditions and requirements:

- a. The minimum size of a campground shall be 10 gross acres.*
- b. The maximum number of individual campsites shall be 12 per net acre.*
- c. The minimum dimensions of a campsite shall be 50 feet wide by 70 feet long.*
- d. Each campsite shall be separated from other campsites within the campground by a yard area not less than 15 feet wide.*
- e. No individual campsite shall be located closer than 75 feet from a public highway or road right-of-way, nor closer than 40 feet to any other property boundary.*
- f. Each campground shall be completely enclosed except for permitted entrances and exits by either a temporary planting of fast-growing plant material, capable of reaching a height of 10 feet or more within two years, or a permanent evergreen planting, the individual trees to be of such a number and so arranged that within 10 years a dense screen will be formed. Such permanent planting shall be grown or maintained to a height of not less than 10 feet.”*

The above language does not exist in our Code. All Conditional Uses in the Village Code were removed. I have clarified with the Parks and Trails Manager for Washington County, the intent of what he has drafted is to create 70.207(D)(1). **It would be drafted as such:**

- ✓ *70.207(D)(1): Camping Cabins on government-owned lands zoned P-1, which meet the requirements of 70.207(D)(1)(a)(b) and are licensed under and operated in conformance with ATCP 79 and SPS 327; not to exceed more than 1 cabin per 14 acre.*
 - a. Minimum setback of 250’ from public roadways*
 - b. Minimum setback of 50’ from property line*

A chief concern of the Village has been the security aspect of the properties and what enforcement actions would be necessary should a campsite become “rowdy” or cause a disturbance. Previously, Glacier Hills Park had a County Ranger who lived there full-time to assist with such matters. This matter was the primary topic of discussion at the Plan Commission meeting on August 6th. Many of the Plan Commissioners expressed support for the proposed amendment but wanted to see some sort of an amendment to address their concerns. As a result of its absence from the proposed amendment, the petition was recommended to the Village Board for denial.

On August 12th, Village Staff had a teleconference with the Washington County Executive. The tone and tenor of the conversation at the Plan Commission was conveyed to him along with the recommendation of a modest amendment to potentially ease the concerns of the Commission and the Village Board. The proposal would be to add subsection (c) to the proposed ordinance amendment above, to read the following:

- c. An “onsite management plan” must be submitted by the petitioner and is subject to approval by the Village Board*

VILLAGE OF RICHFIELD

VILLAGE BOARD COMMUNICATION FORM

MEETING DATE: August 20, 2020

SUBJECT: Ordinance Amendment to P-1, Parks and Recreation District – Camping Cabins in Glacier Hills Park

DATE SUBMITTED: August 11, 2020

SUBMITTED BY: Jim Healy, Village Administrator

This "onsite management plan" could spell out the process for disruptions or disturbances at Glacier Hills Park, a process for discussion with the Village Board if there becomes issues with guests, and written documentation of how the County intends to maintain oversight of their 140-acre park. This type of language (paraphrased) has been used by our consultants to help manage similar uses like "self-storage facilities". From speaking with Village Attorney John Macy, these types of modest amendments are still consistent with the Class II Public Hearing Notice published in the Daily News and therefore can be considered tonight by the Board. Mr. Eric Hyde will be present the night of the meeting should any subsequent questions need to be directly addressed.

Tonight, a Public Hearing has been scheduled with the Class II Public Hearing Notice published in the Daily News.

FISCAL IMPACT:

Initial Project Costs: Administrative
Future Ongoing Costs: Administrative
Physical Impact (on people/space): Increased number of cabins at Glacier Hills Park
Residual or Support/Overhead/Fringe Costs: Administrative

**Re: Camping Cabins on Washington County Owned Lands
Washington County Rezoning Request
Revised Request**

Dear: Mr. Healy:

I received your request that I review the revised request from Waukesha County, seeking to amend the Village Zoning Code concerning camping cabins in the P-1 district. This follows upon my review letter of July 6th, in which I reviewed the first request from the county in this regard. I have had an opportunity to carefully consider this matter.

Based upon my review, I have the following comments, questions, concerns and recommendations in this regard:

1. Issue 1: On July 6th I commented on the definition "camping cabins". That note is still relevant, and is provided here again for your consideration of the policy issue:

The ordinance would allow "camping cabins." Although the ordinance draft does not define that term, it references certain administrative rules, including ATCP 79 which includes a definition of a "camping cabin" as follows: "Camping cabin means a building or other structure that is 400 square feet or less in area. A camping cabin includes a yurt, but does not include a tent, recreational vehicle, tourist rooming house, mobile home or manufactured home." Please be sure that this will be acceptable as a policy matter.

2. Issue 2: On July 6th I commented on the statement provided at that time, that "camping cabins cannot exceed 10 per parcel." That issue has been revised in the latest request. They now propose that the number be limited to "1 cabin per 14 acres." You can consider whether this is acceptable as a policy matter.
3. Issue 3: On July 6th I commented on the ordinance limitation, which limited the use to lands owned by Washington County. That issue has been resolved in this draft by the suggestion that the use be limited to government-owned lands in the P-1 District.

ARENZ, MOLTER, MACY, RIFFLE, LARSON & BITAR

MUNICIPAL LAW & LITIGATION GROUP, S.C.

Jim Healy
July 30, 2020
Page 2

4. Issue 4: On July 6th I commented on the standards that would apply to the issuance of the conditional use permit. That issue has been modified. The request now proposes that the only standards to apply to the issuance of the conditional use permit are:

- Zoned P-1
- Government owned
- licensed under and operated in conformance with ATCP 79 and SPS 327
- not to exceed more than 1 cabin per 14 acres
- Minimum setback of 250' from public roadways
- Minimum setback of 50' from property line

Please be sure that the Village is prepared to issue the CUP upon proof that the applicant satisfies these conditions.

5. Issue 5: On July 6th I commented that I could put the ordinance into an appropriate ordinance form on request, and I remain available to do so on request.

Whether the Village is inclined to adopt the ordinance requested by Washington County is a policy matter. If you should have any questions or concerns regarding this matter, please do not hesitate to contact me.

Yours very truly,

MUNICIPAL LAW & LITIGATION GROUP, S.C.

To: Jim Healy, Village of Richfield Administrator

From: Eric Hyde, Washington County Parks & Trails Manager

RE: Request for Village Ordinance Amendment

The Washington County Planning and Parks Department is requesting an ordinance amendment to add a conditional use for camping cabins on government owned lands. We are requesting that the conditional use allow for camping cabins based on the language and conditions below.

70.207D.3 Camping cabins on government-owned lands zoned P-1, which meet the requirements of **70.207D.3 1 & 2** and are licensed under and operated in conformance with ATCP 79 and SPS 327; not to exceed more than 1 cabin per 14 acre.

- (1) Minimum setback of 250' from public roadways
- (2) Minimum setback of 50' from property line

Since all conditional uses were pulled and do not exist, we are requesting that the Village's Attorney rewrite this ordinance in the form of your ordinance language.

Please let me know if you have any questions or concerns with regards to this request. If you could let me know what the next step is for consideration of this amendment that would be appreciated.

Thanks,

Eric Hyde

ORDINANCE O2020-08-01

**AN ORDINANCE TO CREATE SECTION 70.207(D)(1) OF THE ZONING CODE RELATED TO
“CAMPING CABINS” AS A CONDITIONAL USE
IN THE P-1, PARKS AND RECREATION DISTRICT**

WHEREAS, at the direction of the Plan Commission and Village Board, in October of 2018, the Village Staff was directed to delete all Conditional Uses from all Zoning Districts until such time as new legislation can be drafted to ensure the taxpayers are adequately protected; and

WHEREAS, on March 5, 2020, the Plan Commission recommended approval to the Village Board of the proposed Ordinance to handle “Conditional Use Administration” which was scheduled for Public Hearing on April 30, 2020. It was then subsequently approved; and

WHEREAS, the “Conditional Use Administration” process has been approved and adopted, but no actual “Conditional Uses” exist in our Village Code; and

WHEREAS, the County Planning and Parks Department has petitioned the Village to allow “Camping Cabins” on government-owned land that is zoned P-1 to legalize the existing camping cabins which are on the property and are currently rented out; and

WHEREAS, in March of 2020, a first draft of this proposed Ordinance Amendment was brought forward and recommended to the Village Board for denial by the Plan Commission; and

WHEREAS, County Attorney Kim Lechner has drafted a second version of the Ordinance which they believes more closely conforms to the comments heard during the public meeting;

WHEREAS, on August 6th the Plan Commission made a recommendation to the Village Board for (APPROVAL OR DENIAL); and

WHEREAS, the Village Board of the Village of Richfield having carefully reviewed the recommendation of the Village Plan Commission, being fully informed and advised, having determined that all procedural requirements and notice requirements have been satisfied, hereby determines that this ordinance is consistent with the public necessity, convenience, and general welfare and good zoning practice.

NOW, THEREFORE BE IT RESOLVED, the Village of Richfield Village Board, Washington County, Wisconsin ORDAINS AS FOLLOWS:

Section 1. Section 70.207(D)(1) is hereby created to read as follows:

70.207(D)(1): Camping Cabins on government-owned lands zoned P-1, which meet the requirements of 70.207(D)(1)(a)(b) and are licensed under and operated in conformance with ATCP 79 and SPS 327; not to exceed more than 1 cabin per 14 acre.

- a. Minimum setback of 250' from public roadways
- b. Minimum setback of 50' from property line
- c. *An "onsite management plan" must be submitted by the petitioner and is subject to approval by the Village Board*

Section 2. Severability. Several sections of this ordinance are declared to be severable. If any section or portion thereof shall be declared by a court of competent jurisdiction to be invalid, unlawful, or unenforceable, such decision shall apply only to the specific section or portion thereof directly specified in the decision, and shall not affect the validity of any other provisions, sections, or portions thereof of the ordinance. The remainder of the ordinance shall remain in full force and effect. Any other ordinances whose terms are in conflict with the provisions of this ordinance are hereby repealed as to those terms that conflict.

Section 3. Effective Date. This ordinance shall become effective upon passage and publication/posting.

Adopted this ____ day of August, 2020.

VILLAGE BOARD COMMUNICATION FORM

MEETING DATE: August 20, 2020

SUBJECT: 2021-2025 Capital Improvement Plan (CIP)
DATE SUBMITTED: August 11, 2020
SUBMITTED BY: Jim Healy, Village Administrator

POLICY QUESTIONS: DOES THE VILLAGE BOARD WISH TO ACCEPT THE RECOMMENDATION OF THE CAPITAL IMPROVEMENT SUBCOMMITTEE FOR THE ADOPTION OF THE 2020-2024 CAPITAL IMPROVEMENT PLAN (CIP)?

ISSUE SUMMARY:

Each year the Capital Improvement Program Administrative Subcommittee meets to reevaluate the five (5) year capital improvement needs of the Village. This year, the Administrative Committee took a deep dive into the Village's Equipment Replacement Plan and future Village facility needs. For the first time since the inception of our annual vehicle maintenance report, where each maintenance item is catalogued for each vehicle/piece of equipment during the previous fiscal year, we've decided to sell a Village plow truck early due to its exceedingly high maintenance costs. Selling this truck earlier than our normal 22-year life of a plow truck will afford the Village the ability to receive more money at auction to put back into savings for its replacement. In FY2020, the Village saved in excess of \$212,000 towards the replacement of future vehicles. We do so, for these exact types of situation. Each plow truck is approximately \$183,000.

The Village's 2020 Highway Improvement Plan was completed as of August 13th and Staff are awaiting the final costs for work, which is anticipated to be well below the bid estimates submitted by the contractor. If the Board recalls, it awarded a contract in the amount of \$1.517M earlier in the year. Any residual amount left over will be directed towards the Alternates that fall within budget to attempt to get the \$1.517M budget to as close to \$0.00 as possible. This is the second year the Village has been able to take advantage of doing multiple miles of road with the Road Referendum that was passed in November of 2018.

The plan before the Village Board tonight is a plan that has been endorsed by Village Staff which includes Administrator Jim Healy, Administrative Services Coordinator Jen Keller, Deputy Treasurer Deanna Hupe, Department of Public Works Supervisor Brett Thicke, and Village Shop Foreman Bob Muesch. Having the input and support of all of these individuals is just one of the pieces needed for the success of this plan. The final financial plan, as produced, has been reviewed by each member of the Capital Improvement Plan Administrative Committee. At the scheduled July CIP Administrative Committee meeting, the drafted CIP was recommended for approval to the Board with the following motion:

Motion by Committee Member Tom Lechner to recommend approval of the 2020-2024 Capital Improvement Plan to the Village Board; Seconded by Member Dick Melzer; Motion carried unanimously.

The adoption of the Village's CIP allows Village Staff to begin the budgeting process by inputting numerical figures endorsed by the Village Board that are above our specified threshold. Aside from the straight-line depreciation method for saving for our vehicle fleet, these are the major capital expenditures the general public can expect to see included in the 2021 Budget (shown on next page).

VILLAGE OF RICHFIELD

VILLAGE BOARD COMMUNICATION FORM

2021 Total		\$1,471,575		\$1,518,027
		Roads Total	Total	

The document, prepared primarily by Ms. Jen Keller and Ms. Deanna Hupe, is a tremendous achievement for the Village. There are many communities in SE Wisconsin, much larger than Richfield, who don't come close to this level of sophistication when putting together their CIP. As this document is the backbone for our Village Budget, it provides our citizens the roadmap for future spending in a clear, concise, and transparent manner.

Section 1:
Capital Improvement Program
Policy

Village of Richfield

Capital Improvement Program Policy

1.0 PURPOSE

To provide an authoritative decision-making process for the evaluation, selection and multi-year scheduling of public physical improvements based on a projection of available fiscal resources and the community's priorities.

2.0 ORGANIZATIONS AFFECTED

The Village of Richfield has a substantial investment in buildings, equipment, parks and public infrastructure, including its utilities. Prudent management of these investments is the responsibility of Village government. In order to fulfill this responsibility but remain within fiscally prudent parameters, the Village has enacted this policy for development of the capital improvement budget. This policy applies to all capital budgets of the Village, including general Village functions and utility funds.

3.0 POLICY

THIS POLICY ESTABLISHES A CAPITAL IMPROVEMENT PROGRAM TO:

1. ENSURE THE TIMELY RENEWAL AND EXTENSION OF THE VILLAGE'S PHYSICAL FACILITIES;
2. SERVE AS THE LINKAGE IN THE VILLAGE'S PLANNING FOR PHYSICAL DEVELOPMENT BETWEEN THE COMPREHENSIVE PLAN, THE STRATEGIC PLAN AND ALL SUBSIDIARY PLANS WITH A 10 – 15 YEAR HORIZON AND THE ANNUAL BUDGET PROCESS WITH A ONE YEAR HORIZON;
3. MAINTAIN CONTROL OVER THE VILLAGE'S LONG-TERM DEBT IN RELATION TO THE VILLAGE'S FINANCIAL CAPACITY;
4. ENSURE COORDINATED CAPITAL DEVELOPMENT

4.0 DEFINITIONS

4.1 *Capital Improvement Program (CIP)*

A comprehensive and systematic program designed to facilitate the planning, budgeting and funding of all Capital Improvement Projects. This shall include the Equipment Replacement Program, as well as any projects which meet the below definition(s).

4.2 *Capital Improvement Project Threshold*

Projects meeting the below definition shall be included in the Capital Improvement Program document rather than the Operating Budget document, as determined by the Village Administrator.

- A project expected to have a useful life greater than 5 years and an estimated cost of \$5,000 or more. Capital projects include the construction, purchase, or major renovation of buildings, utility systems, or other structures; purchase of land and major landscaping projects; purchase of machinery or equipment.

4.3 *Capital Improvement Schedule*

A summary schedule of all approved capital improvement projects. The program shall be for a five year period. The program shall be annually revised and projected one year to allow for changed conditions and circumstances.

4.4 *Capital Improvement Plan*

A comprehensive planning document including all approved projects in the five year Capital Improvement Program. This document will include detailed information regarding each project, the Capital Improvement

Program Project Request Form and any subsequent attachments and background materials. This document will also include the Capital Improvement Schedule and the Equipment Replacement Schedule, as well as funding source information, linkages to other planning documents and other similar data and analysis.

4.5 *Capital Budget*

The capital budget includes those projects scheduled for activity and funding in the next budget year. The capital budget shall be presented annually by the Village Administrator to the Village Board, in conjunction with the normal budget process, for consideration and adoption. The source of financing for each project in the budget shall be identified. The capital budget and the Capital Improvement Schedule shall only include those project costs or portions thereof, that the Village is responsible for funding. This would include grant proceeds received on a reimbursement basis, but would not include non-local funding for which the Village does not need to front the money.

4.6 *Capital Fund*

To ensure proper accounting and financial management the Village shall create and maintain a Capital Fund for the purposes of financing and accounting for the cost of Capital Improvement Projects. This fund shall be accounted for in the Financial Statement of the Annual Auditor's Report and will be maintained by the Village Treasurer.

4.7 *CIP Administrative Committee*

The CIP Administrative Committee consists of the following members:

- Village President
 - * The President shall convene the Committee annually, vote only in the case of a tie and shall chair all meetings.
- One Trustee, elected by the Village Board at the first meeting in May of each year
- One non-elected official on the Plan Commission, appointed by the Village Board at the first meeting in May of each year
- One citizen at large, appointed by the Village Board at the first meeting in May of each year

5.0 SCHEDULE

The schedule for the annual CIP process shall be as follows:

- *December 15* - CIP Request Forms issued by Village Administrator
- *February 15* – Departmental submission of CIP request forms to Village Administrator
- *First Thursday in March* – Village Administrator & Deputy Treasurer present analysis of available and acceptable funding levels to CIP Administrative Committee
- *Third Thursday in April* – Final consideration and adoption of CIP by the Village Board
- *Third Wednesday in May* – Publication and distribution of the adopted CIP

6.0 PROJECT PRIORITIZATION

As part of the project submittal process, department/division heads shall identify project priorities to help determine which projects are recommended for inclusion in the five-year CIP.

The following matrix system shall be used to establish a priority for each project. The system ranks projects in two separate categories and then, through the use of the matrix, ranks the projects as either Level 1 (highest), Level 2 (medium) or Level 3 (lowest) priority.

The initial measure of the project's priority is first established using the following factors:

High

- Project is mandated by local, State or Federal regulations
- Project is a high priority of the Village Board, based on the most current Comprehensive Plan or other subsidiary plans
- Project prevents irreparable damage to existing facilities
- Project leverages local funding with other non-local funding sources
- Project finishes a partially completed project

Medium

- Project maintains existing service levels
- Project results in increased efficiency
- Project reduces operational costs
- Project significantly reduces losses in revenue or provides for significant increased revenues

Low

- Project provides an expanded level of service or new public facility
- Project is deferrable

Four project criteria are then evaluated to help separate projects with a greater “need”, like Health & Safety issues as compared to new projects that might be more “desired” than “needed”. The four project criteria are summarized as follows:

Health/safety

- Capital projects that protect the health and safety of the Village, its residents, visitors and employees

Maintenance/replacement

- Capital projects that provide for the maintenance of existing systems and equipment

Expansion of existing programs

- Capital projects which enhance the existing systems and programs allowing for expansion of services

New program

- Capital projects that allow new programs and services

After each project is rated on the priority criteria and project criteria identified above, the project is placed on the grid of the matrix and the rating is determined to be a Level I, II or III.

Prioritization Matrix

CRITERIA		PRIORITY		
		HIGH	MEDIUM	LOW
Health/ Safety/ Welfare	1	I	I	II
Maintenance/ Replacement	2	I	II	II
Expansion of Existing Program	3	II	II	III
New Program	4	II	III	III

Note: Prioritization Matrix and description adapted from South Hampton County, VA.

7.0 CIP Administrative Committee Criteria

- Project rating as established by department/division Head.
- Cost in consideration of available funding, including non-local funding opportunities.
- Compatibility with the Village’s most current Comprehensive Plan as well as other adopted subsidiary plans
- Project Benefits in relation to costs:
 - * Projects directly affecting the health and safety of citizens shall have priority over all other projects
 - * Projects accruing benefits to a larger number of citizens shall have priority over projects benefiting a smaller number of citizens
- Project operating costs - Projects will be evaluated on the basis of additions and/or savings to the Village's operating costs
- Economic Development Impact - Projects will be evaluated on the basis of their overall impact on the Village's economic base, including the likelihood that the project will spur other private and public sector development, create new jobs or assist in retaining current jobs, or otherwise positively impact the Village's economic base
- Project Readiness - Projects will be evaluated on the ability to move the project expeditiously to completion
- Provide a balance of capital expenditures among the various service sectors.

Section 2:
Equipment Replacement
Policy

Village of Richfield

Equipment Replacement Policy

1.0 PURPOSE:

The purpose of this Equipment Replacement Policy is to propose a vehicle replacement plan for the Village to follow, and the specific vehicle and equipment needs and requirements of the Village. This policy reflects the vision of the Village of Richfield to create a multi-year vehicle and equipment replacement plan that will serve as a guide in providing direction to meet needs. This is a living document that will be modified and updated annually to reflect changes in the Village's organizational climate, the changing needs of citizens and changes in the automotive and equipment industry. The Village of Richfield Department of Public Works and Highway is assigned the overall responsibility for managing the Municipality's fleet of vehicle and construction/maintenance equipment. This Department works to: develop vehicle and equipment specifications; develop vehicle and equipment replacement schedules, acquire vehicles and equipment; and reassign and dispose of vehicles and equipment. The vehicle and equipment maintenance function are assigned solely to the Department of Public Works and Highway. The annual appropriations for operations, maintenance, repair and fueling for Police, Recreation, Inspection, Administration and Public Works vehicles and equipment is budgeted in the Public Works Operating Budget.

2.0 ORGANIZATIONS AFFECTED:

This policy shall apply to all vehicles of the Village of Richfield and all Department of Public Works and Highway equipment.

3.0 POLICY:

IT IS THE POLICY OF THE VILLAGE OF RICHFIELD TO ENFORCE ALL GUIDELINES DICTATED IN THIS POLICY REGARDING MAINTENANCE, REPLACEMENT TIMES, AND SPECIFICATIONS OF ALL VEHICLES AND DEPARTMENT OF PUBLIC WORKS AND HIGHWAY EQUIPMENT.

4.0 OBJECTIVES:

The primary objectives of the Village is to control the overall cost of operating and maintaining the fleet of vehicles and equipment, to main vehicles and equipment in a manner that extends their useful life, to control the growth in size of the fleet, to standardize the composition of the fleet and to accurately budget for maintenance and replacement costs. All new purchases for vehicles and equipment are part of the budget cycle and are coordinated through the Village Administrator for recommendation.

5.0 ACQUISITION:

The goal of the Village's acquisition practices is to obtain the lowest possible price and the highest possible quality for vehicles and equipment. All purchases of vehicles and equipment will follow the applicable purchasing codes. Annually before the preparation of the Village Budget the Public Works Supervisor will review the vehicle replacement schedule and plan for the acquisition of replacement vehicles and equipment. Any request for new equipment that would increase the size of the fleet must be cost justified to the Village Administrator and Village Board.

6.0 MAINTENANCE:

The goal of the Department of Public Works and Highway vehicle and equipment maintenance practices is to keep vehicles and equipment in sound operating condition. Preventive maintenance routines and intervals followed by our mechanics are based on local driving conditions and manufacturer's recommendations for each type of vehicle or equipment and each type of maintenance service. Maintenance costs represent a significant portion of the total

cost to own and operate a vehicle or piece of heavy equipment and tend to increase as a vehicle or equipment ages. Escalating maintenance costs are a key factor in determining when to replace a vehicle. In addition to the added cost of maintenance as a vehicle ages, there is an additional cost to the municipality when a vehicle is in the garage receiving maintenance and not available for use. Preventive maintenance is the key to avoiding the repair or replacement of costly major vehicle components such as engines, transmissions and drive trains. Our mechanics make adjustments to the manufacturer's recommendations based on the specific vehicle's use.

Accurate and complete vehicle maintenance records are a key tool for making equipment management decisions. Vehicle maintenance costs are variable and distinct to each vehicle. Pertinent records maintained for each vehicle are vehicle maintenance logs, and cumulative costs of parts, labor, and overhead by a vehicle over its life.

7.0 REPLACEMENT:

As with other aspects of vehicle and equipment management, replacing a vehicle too soon or too late wastes money. The Department of Public Works and Highway have developed and will continue to develop accurate replacement standards based on industry guidelines and years of experience in operating and maintaining vehicles and equipment. The goal is to analyze the costs associated with a vehicle or piece of equipment and identifying the point when, on average, a vehicle is reasonably depreciated but not yet incurring significant maintenance costs. By replacing the vehicle or piece of equipment at this point, the Village can avoid escalating maintenance costs and optimize resale value. The three criteria that are considered when establishing the replacement schedule were mileage, age and maintenance. Any request for replacement equipment must be cost justified to the Village Administrator and Village Board.

8.0 DEVELOPMENT OF GUIDELINES AND PROCEDURES:

The Public Works Supervisor inventories existing vehicles and equipment and has prepared a replacement schedule for all public works and Village pieces. The schedule will be updated annually and will be used as the basis for planning for the replacement of vehicles and equipment through the Village budget. The vehicle and equipment replacement schedule will include the following information for each vehicle or unit of capital equipment:

- a. Age in years, also known as life
- b. Usage in hours or miles
- c. Useful life (based on Chapter 02 Administration Section 25 Cost Invoicing, Subject 50 Classified Equipment Rates from The Wisconsin Department of Transportation)
- d. Cost of maintenance
- e. Overall condition: mechanical, operating, safety, or appearance
- f. Funding

The guidelines for vehicles considered for replacement are based on vehicles meeting predetermined age and/or hour and/or mileage criteria. Additional consideration is given to functionality and overall condition of the vehicle or equipment.

As vehicles reach the threshold miles or age of replacement criteria, a vehicle maintenance evaluation is performed by a Department of Public Works employee. The evaluation form will be provided to the Public Works Supervisor for further review and consideration. If the evaluation proves the vehicle would be economical to retain for an additional year, the vehicle will be targeted for retention. Depending on the availability of funds, vehicles and equipment will be replaced when they are at the end of their economic life, no longer safe to operate, not reliable enough to perform their intended function, or there is a demonstrated cost saving to the Village of Richfield.

9.0 VEHICLE CATEGORIES:

For purposes of review the vehicles and equipment of the Village have been listed below. Each type of equipment is described below, and the number of units currently on hand, replacement cost and useful life range for each category is summarized below in Figure 1.

- 9.1 Light trucks – The Village owns two (2) F350 which is used as a daily running flatbed truck for errands, a F550 which is used as the chipper truck and at times for snowplowing, and a F250 which is used solely by the Supervisor in its fleet of light trucks.
- 9.2 Car – The Village owns and maintains a 2013 Ford Focus sedan type car. This car is routinely used by Village staff for a variety of reasons including delivering public postings and for staff attending county meetings.
- 9.3 Honda CRV – The Building Inspector's use two (2) 2016 Honda CRVs when traveling to the various locations to conduct inspections. These vehicles are leased per the Village of Richfield, Village of Slinger and Village of Sussex intergovernmental agreement.
- 9.4 Tractor – The Village makes use of two (2) separate tractors for various jobs related to the maintenance of parks.
- 9.5 Gator – The Department of Public Works uses one (1) Gator vehicle to run various errands with maintaining the sport fields and parkland of Heritage Park.
- 9.6 Bobcat – The Village uses one (1) Bobcat vehicle in highway maintenance operations.
- 9.7 Chipper – The Department of Public Works uses the one (1) Chipper to chip brush and trees that either have fallen or cut in the Village.
- 9.8 Plow truck – There are thirteen plow trucks in the Public Works and Highway Department. Of these, two (2) are Oshkosh Trucks and the remaining eleven are International. These trucks are relied upon to plow snow on the many miles of Village maintained roads as well as hauling dirt and gravel during the summer months.
- 9.9 Rake – The rake is used to groom and maintain the baseball diamonds. The Village owns one (1) rake.
- 9.10 Roller – The Department of Public Works and Highway makes use of one (1) roller to ensure the sports fields are flat and even. Its primary use is on Village roadways to also ensure they are flat and even as part of the road construction and maintenance operations.
- 9.11 Mower – Village park space and sports fields are cut with the use of the one (1) Toro mower and one (1) Exmark mower during the summer and fall seasons.
- 9.12 Cat Loader—The Village owns one (1) Cat Loader which is used throughout the year. It assists plow operations by loading salt into the Plow Trucks and during spring/fall brush operations.
- 9.13 Excavator - The Department of Public Works uses one (1) excavator for projects requiring digging into soils.

Figure 1
Summary of Vehicles and Equipment Currently Owned
Cost to Replace is Based on Current Year Replacement Cost According to our
Equipment Replacement Schedule

Vehicle Type	Inventory	Replacement Cost	Useful Life Range
Light Truck	4	\$25,000-50,000ea	15yrs
Car	1	\$14,360	20yrs
Honda CRV	2	\$23,850ea	Leased Vehicles
Tractor	2	\$35,000-\$95,000ea	15yrs
Gator	1	\$11,000	10yrs
Bobcat	1	\$50,000	20yrs
Chipper	1	\$40,000	25yrs
Plow Truck	13	\$170,000ea	22yrs
Rake	1	\$12,000	15yrs
Roller	1	\$25,000	20yrs
Mower	2	\$20,000-65,000ea	15yrs
Cat Loader	1	\$110,000	20yrs
Excavator	1	\$143,125	20 yrs
TOTAL	31	NA	NA

10.0 REPLACEMENT POINT SYSTEM:

The Village will make use of a quantitative point system in order to determine the correct time to replace vehicles and equipment pieces. This point system consists of factors. These factors are age, miles (or hours) used, type of service used for, reliability, maintenance and repair costs, and condition. For each factor a vehicle is given a certain amount of points during the annual review to indicate what type of condition the vehicle or equipment is in. The total points and the corresponding condition indicate what level the item is considered to be depending on the range the point amount falls into. There are four levels which are excellent, good, qualify for replacement, and needs immediate consideration. Figure 2 details the Village of Richfield’s Replacement Point System.

**Figure 2
Replacement Point System**

Factor	Points
Age	1 point for each year of chronological age, based on in-service date
Miles/Hours	1 point for each 10,000 miles or 750 hours of use
Type of Service	1, 3, or 5 points are assigned based on the type of service that the vehicle or equipment had during most of its life. The more severe the type of service performed the higher the number assigned. 1 = Regular maintenance 3 = Wear and tear due to age 5 = Accident damage or major engine reconstruction
Reliability	1, 3, or 5 points are assigned depending on the frequency that a vehicle or equipment piece is in the shop for repair. The more the frequency of shop visits the higher the number. 1 = Between 1 and 6 shop visits 3 = Between 7 and 12 shop visits
Maintenance Costs	1, 3, or 5 points are assigned based on total maintenance and repair costs (not including repair of accident damage). 1 = Between \$1 and \$200 3 = Between \$201 and \$500 5 = \$501 and over
Condition	This category takes into consideration body condition, rust, interior condition, accident history, anticipated repairs, etc. a scale of 1, 3, or 5 points is used with the higher the number the worse the condition. 1 = General scratches minor rust 3 = Rusting, damage, broken parts 5 = Dents, rusting, and significant damage to any portion of the vehicle
Point ranges	
Under 20 points	Condition I: Excellent
20 to 23 points	Condition II: Good
24 to 30 points	Condition III: Qualifies for replacement
31 or more points	Condition IV: Needs immediate consideration

Traffic Count Summary 2019

As a way to continue to improve the Village of Richfield's Capital Improvement Plan (CIP), Village staff implemented traffic counts as another factor for helping prioritize roads for the Village's highway improvement plan. The proposed traffic count schedule is designed to provide the Village with an up-to-date traffic count for all of the Village's major roads, along with residential streets that are serving as major traffic arteries for subdivisions. In order to get the most accurate traffic counts, data should be collected over a 7 day period to eliminate any inconsistencies. The counts gathered are just total number of cars that travel past a given point in a day.

The summer of 2019 was the fifth year in a five (5) year cycle to gather traffic counts on all of the Village's major roads, along with residential streets that are serving as major traffic arteries for subdivisions. In 2020, Staff will postpone the next cycle of traffic counting due to interrupted traffic patterns during COVID-19 restrictions. Staff will also be creating a new, six (6) year traffic counting schedule so that all new roads which were established in the last five (5) years can be included in the process of gathering traffic data.

In 2019, 55 traffic counting locations account for the almost 50 miles of Village roads analyzed. Traffic counts ranged from as high as 1,173 cars on Wolf Road between STH 167 and Orchard Street and as low as 43 cars per day on Vista Moraine Drive between Hillside Road and Keli Jean Court.

The following data provided gives a listing of the tested locations from 2019 and the locations coming up in the 2021 road count schedule. Please note that the 2019 data gives a site number which coincides with the first map in this road count section. The date tested and the Average Daily Traffic Count (ADTC) is also provided for analysis. The 2021 test locations following has the road, segment and scheduled year of testing listed. Staff is limited to testing these roads between the months of May and October (weather permitting) so the schedule is merely a guide.

Site	Road	Segment	Date	ADTC
1	Drumlin Ln:	St. Augustine Rd- Kettle Ridge	5/28/2019-6/4/19	89

2021 Traffic Count Locations

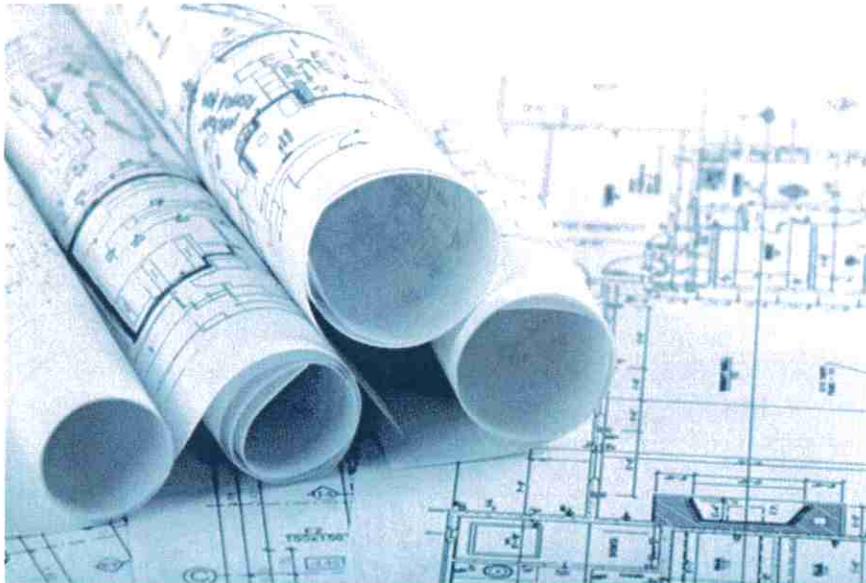

As noted, the 2020 Traffic Counting Program has been postponed to due interrupted traffic patterns during COVID-19 restrictions. Staff will resume traffic counting in 2021 with a revised, six (6) year traffic counting schedule so as to include all recently added segments to the Village road inventory.

Project #	PW&H-21-005
Project Name	Washington County Roadway Improvement 2021 – CTH Q and Hillside Road Roundabout

Category Street Construction

Priority 2 Very Important

Description
A municipal contribution for future work to be completed at CTH Q and Hillside Road will be planned to go towards the construction of a roundabout. The Washington County Highway Department project timeline is subject to grant approvals from the State of Wisconsin.

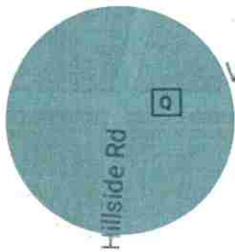

Justification
Mill and overlay includes base improvements, culvert replacements and shoulder enhancements where needed. Roadway Improvement Program addresses those roads that meet WISLR standard for surface of approaching failure.

Priority	1 Very Important

Village of Richfield, Wisconsin

Project #	P&R-21-001
Project Name	Replacement of Fireman’s Park Tennis Courts

Description

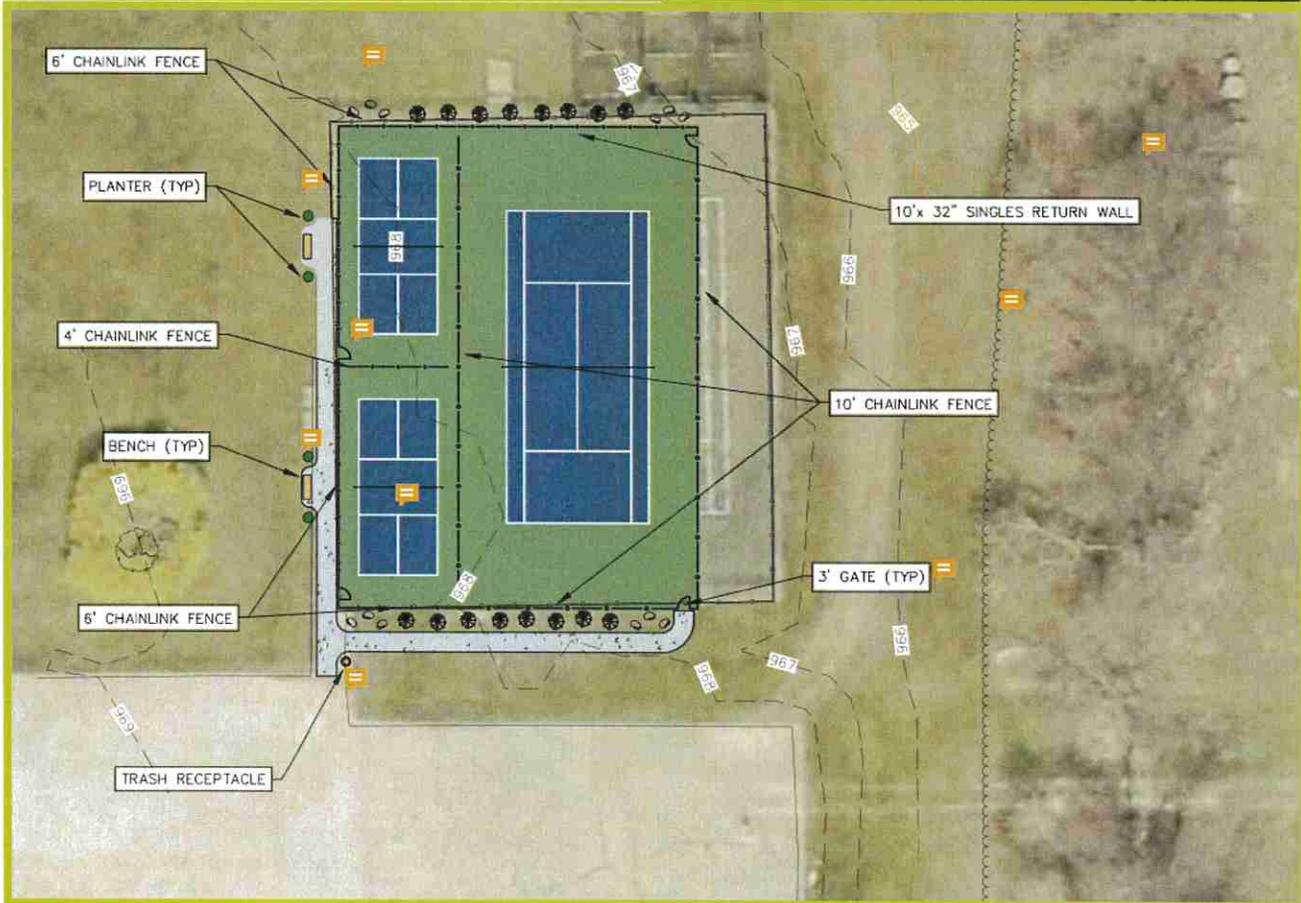

In 2018, \$23,952 was transferred to the Parks Department Reserve Fund for a future park amenity. Subsequently, in 2019 the Village Park Commission determined the Fireman’s Park Tennis Courts were in greatest need of funds for repairs. In 2020, the Village Board authorized the transfer of \$75,835 of impact fees to be allocated to the reconstruction project. In 2020, a bid to reconstruct the tennis courts was noticed and three (3) vendors submitted bids ranging from \$120,000—\$153,000 for the project. Once a funding gap was identified, the bids for work were denied and the project has been slated to be rebid in 2021. By delaying the project to 2021, it is the goal that additional funds will become available for the project and community donations will assist with meeting the project costs.

Justification

The current tennis courts have deteriorated to a state of disrepair that is so great, repairs are not guaranteed by any contractor. Replacement of the amenity is required.

Expenditures	2021	2022	2023	2024	2025	Total

Category Technology
Priority 2

Project #	A-21-002
Project Name	Municipal Software Accounting Package

Description
An updated software package would be purchased for the use of payroll, accounts receivable, accounts payable, and transaction receipts. The current program, BDS, has been utilized by the Village since 2005. It is antiquated technology and was proposed to be replaced in 2020. However, after a review of programs it was determined the Village is short of the funding goal by approximately one (1) year.

Justification
The current system is antiquated and the suite of Accounting software does not work in conjunction with each other, internally.

Village of Richfield, Wisconsin

Type Equipment
Useful Life 5 Years

Project #	A-22-001
Project Name	Server & Battery Backup

Category Equipment: Computers
Priority 1 Critical

Description

A server is a physical computer/hardware system dedicated to “serve” the needs of the other computers on the network. Along with the server upgrade, it is recommended that we purchase a back-up power supply to ensure that even during power failures our Village’s central nervous system will still function. A remote server that is cloud-based is also a consideration our IT providers would like us to consider so that there is an annual cost each year rather than a large expenditure every 4-5 years. The Village will be exploring this opportunity as a potential intergovernmental partnership with Washington County.

Justification

A Network server is one of the most, if not the most, vital pieces of computer equipment the Village utilizes. It provides all of the Villages computers with shared resources - disk space, storage, shared documents, etc. Without the use of a server thing as trivial as printing to our networked printer would be impossible.

Project #	PW&H-22-005
Project Name	Roadway Improvement 2022– Conestoga Trail

Category Street Construction
Priority 2 Very Important

Description

Road: Conestoga Trail from Mayfield Road to Conestoga Court

Distance: 1214'

Type: 70

Pvt Year: 1993

Width: 24'

WISLR Rating: 5 (2017), 5 (2019)

Road: Conestoga Trail from Conestoga Court to Mayfield Road

Distance: 317'

Type: 70

Pvt Year: 1993

Width: 24'

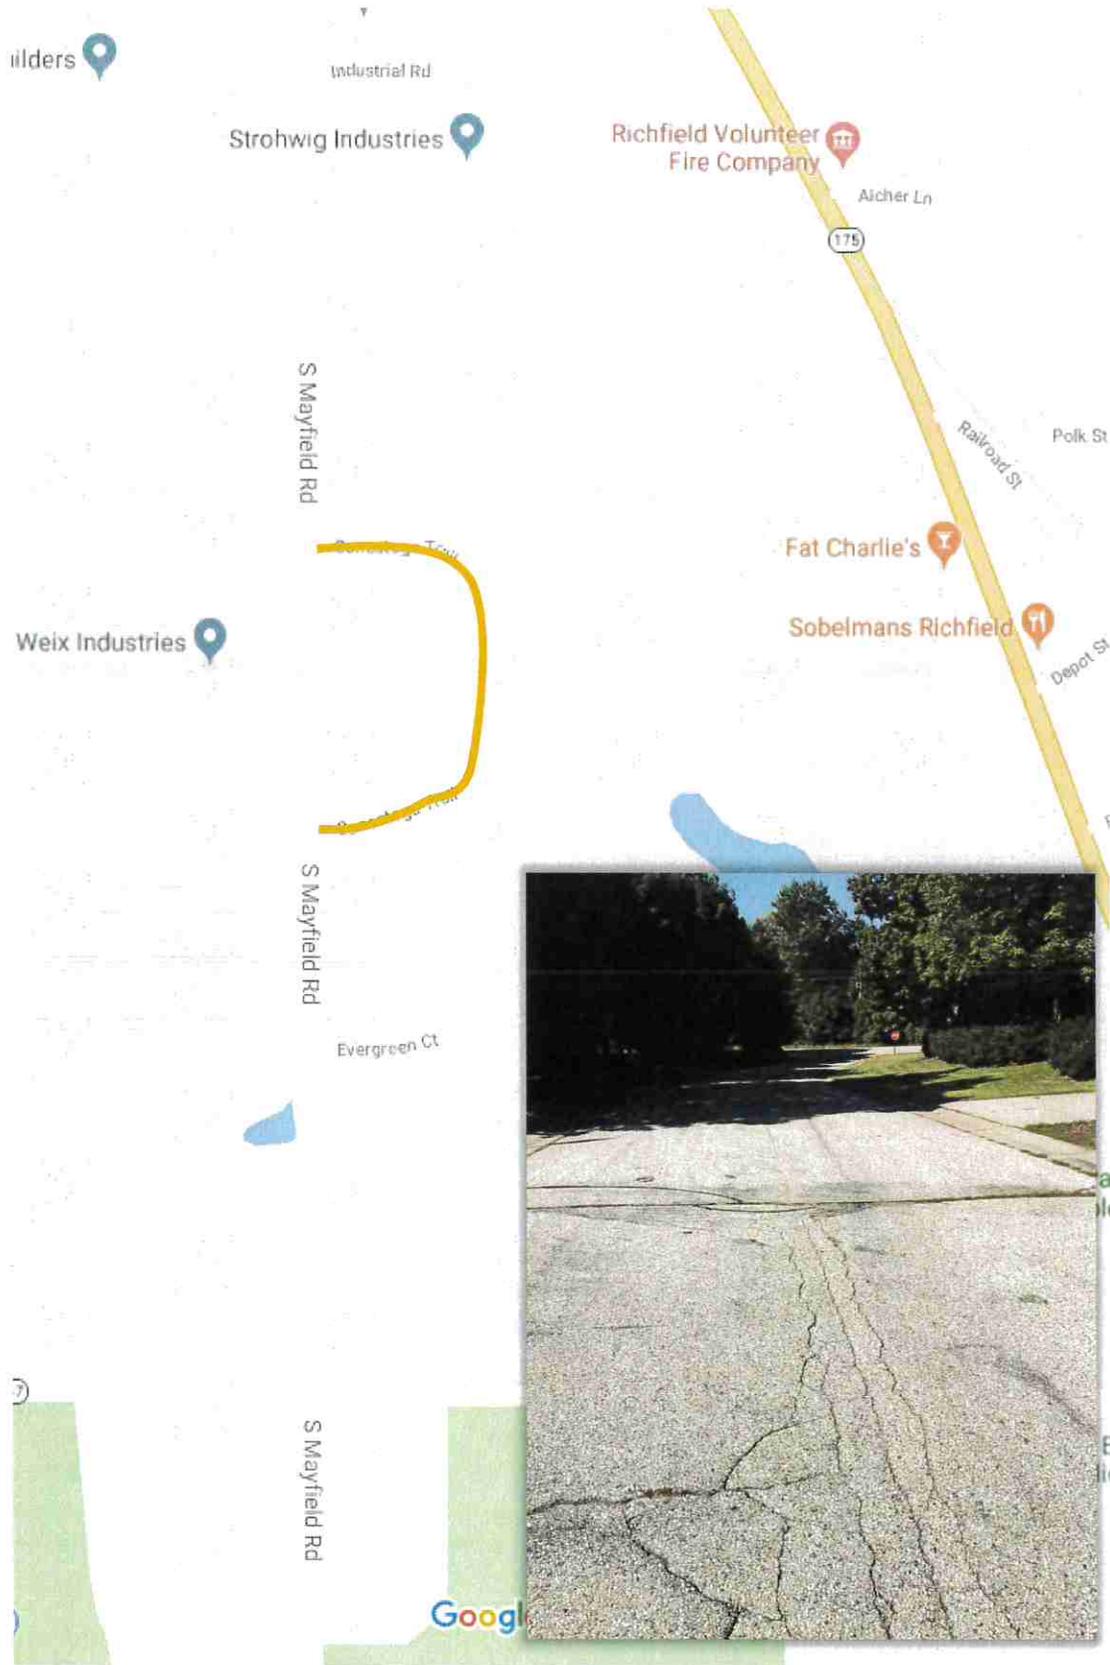

WISLR Rating: 5 (2017), 5 (2019)

Justification

Mill and overlay includes base improvements, culvert replacements and shoulder enhancements where needed. Roadway Improvement Program addresses those roads that meet WISLR standard for surface or approaching failure

Village of Richfield, Wisconsin

Project #	PW&H-22-007
Project Name	Fuel Pump System Upgrade & DPW WIFI

Description

The Village’s fuel pump system is estimated to be approximately 15-20 years old. While some of the parts are still in circulation with our contracted provider, Interstate Fuel and Pump, they are suggesting to Staff that at some point in the not so distant future they may not be able to service our fuel system if the “motherboard” or other major electrical components fail. As such, Staff is preparing for its inevitable technological failure. The complication is that most newer systems are tied to wireless internet, which the Village does not have in its DPW Building. Currently, the internet is hard-lined to Village Hall with a trenched line.

It is possible to not have this system connected to WIFI. However, it would require Staff to take daily or weekly readings from the fuel pump, depending on usage. Staff would then need to upload the data to a external jump drive and export the fuel usage into the software program and manually sort the data. The savings from not having the building connected to WIFI is approximately \$3,500 for the unit itself and approximately \$11,000 for the WIFI installation.

The organization who utilize this system regularly are the Washington County Sheriff’s Office, Richfield Volunteer Fire Company, Holy Hill Area School District and the Village’s fleet of vehicles and equipment.

Justification

The Village’s fuel system is an important, daily component of our municipal operations, for first responders, and our local school district. We cannot afford for this system to be down for any amount of time, so Staff is proposing to save for this project over the period of two (2) years for installation in 2022.

Project # PW&H-23-004

Category Street Construction

Project Name Salt Storage Facility

Priority 1

Description

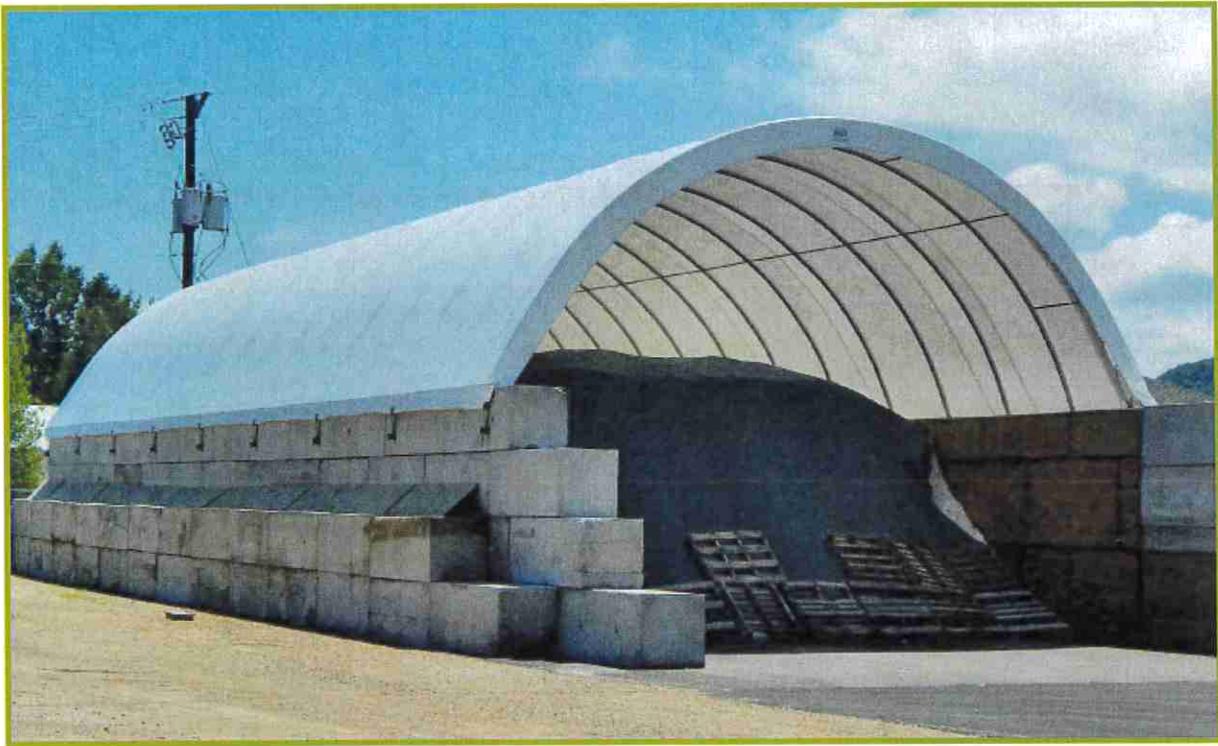

A Tented poly plastic cupper structure will be purchased to act as a metal pole-framed canopy, situated over concrete blocking base. At the time of purchase, this wooden structure will be close to 30 years old.

Justification

The current building has been repaired several times over the last few decades. Staff also believes the State of Wisconsin will soon be requiring municipalities to take early fill quantities of salt, and thus creating a need to increase the current structure's salt capacity.

Useful Life 20-25 years

Project # PW&H-23-005
Project Name Municipal Garage Trench Drain

Category Building
Priority 2

Description

The Village's Shop Foreman in 2019 conducted an extensive repair of the trench drain system which has become corroded due to the amount of salt washed off the plow trucks. The trench drain system is original to the building which was constructed in 1998. While the grate system will be functional for the next couple of years, additional repairs will be needed in the future and at some point the system will fail.

Our Shop Foreman has requested we consider budgeting for its replacement which may become necessary in the next 3-5 years.

Justification

The trench drain system is showing signs of wear and tear from its 22 years of functionality. The main source of the corrosion is the salt that is continually washed off plow trucks in the winter time which has eaten away at the system. In 2019 a major repair was welded into place by the Shop Foreman as a temporary repair. It is expected more repairs will be necessary in the coming years and at some point it will have exceeded its useful life.

TRENCH DRAIN GRATE

865 SERIES

FastTrack

SPECIFICATION

Sioux Chief 865 Series HDPE slotted grating shall be used where necessary with FastTrack trench drain channels. Grating shall be approved for use in light-duty applications and walkways for pedestrian traffic. Grating shall be lightweight, durable, and U.V./chemical resistant. Grating shall have large, open slots for increased flow capacity into channel and fasten to anchors with screws.

ADA: No

Heel-Proof: No¹

Load Rating:

DIN EN 1433: Class A15
ASME A112.6.3: Light Duty

MATERIALS

Grate: High-density polyethylene
Screws: Stainless steel

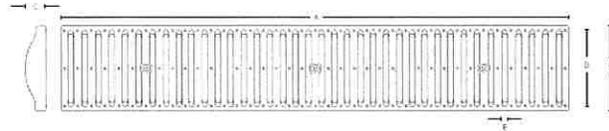

FREE-AREA

81.4 in²

DIMENSIONS

A: Length	36'

¹ Per ASME A112.6.3 (foot/crutch)

TRENCH DRAIN

865 SERIES

FastTrack

SPECIFICATION

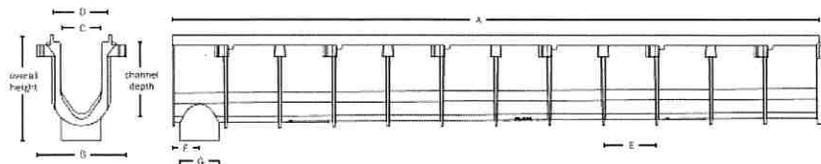

Sioux Chief 865 Series FastTrack trench drain shall be used where necessary to convey surface water into drainage system. Trench drain channel shall be sloped (0.75%) or neutral and seamlessly molded from lightweight, durable, chemical-resistant material. Channel shall include construction covers (2), stainless steel grate anchors (6), and integral bottom outlet for optional connection. Channel shall be designed with structure-reinforcing ribs and side anchors (12 per channel) for securing channel to re-bar (1/2" #4). Channels shall connect end-to-end, in proper sequence, with mechanical, tongue-in-groove style joint. Channel shall have a modified bottom radius to improve flow rate and reduce sediment buildup. Designed in accordance with ASME A112.6.3-01.

MATERIALS

Channel: High-density polyethylene
Grate Anchors: Stainless steel
Construction Cover: High-density polyethylene
Screws: Stainless steel

DIMENSIONS (see table below for specific dimensions)

A: Length	72'
B: Overall width	9 3/4'
C: Channel width	4 1/2'

Project # VR-24-001
Project Name #18 JD Gator

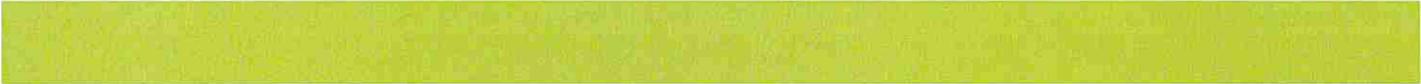

Description
 Replace existing #18 John Deer Gator

Justification
 This piece of equipment was purchased in 2009 and has frequent maintenance done to repair various parts. Items that have been replaced include the hour meter, tires, brakes, started, and battery. Replace equipment per the Equipment Replacement Schedule.

Justification

Mill and overlay includes base improvements, culvert replacements and shoulder enhancements where needed. Roadway Improvement Program addresses those roads that meet WISLR standard for surface of approaching failure. Road Improvement pool subject to change. Projects selected for 2024 construction will amount to approximately \$1,500,000. Total cost to make road pool repairs estimated to be \$13,500,000.

VILLAGE BOARD COMMUNICATION FORM

MEETING DATE: August 20, 2020

SUBJECT: 2020 Groundwater Monitoring Program – Contract Modification
DATE SUBMITTED: August 11, 2020
SUBMITTED BY: Jim Healy, Village Administrator

POLICY QUESTIONS: DOES THE BOARD WISH TO AMEND THE CONTRACT FOR SERVICES WITH WELLNTEL TO MOVE CLOSER TOWARDS FULL AUTOMATION?

ISSUE SUMMARY:

Last week Village Staff was contacted by Dr. Doug Cherkauer after a conversation he had with the CEO of Wellntel, our Groundwater Monitoring Program contracted service. Our stated goal has been to be able to convert as many wells from manual monitoring to automated well monitoring in 2020. Originally, the contract included a conversion of three (3) properties this year, but the Board also expressed an interest to speed up the automation process as much as possible, because fewer field days doing the readings in person would reduce future annual costs.

Attached is a proposed contract amendment put together by Wellntel which recognizes the savings from one (1) lost round of field work - due to COVID-19 -and then increase the number of proposed conversions to automation from three (3) to six (6). The reduced field costs of the Wellntel employee to manually take tape-down readings (-\$1250) are shown in "Visit and Maintenance" line of the budget included in the attachments, and the cost of the increased conversions (+\$1792) is in the line labelled "New Wellntel sensors". This produces a net increase in the budget of \$542 for 2020, a relatively modest amount. Additionally, the monies would be used to relocate the automated systems from two (2) wells that have been removed or will be removed from the monitoring array, to be replaced by newly volunteered wells in more geographically desirable locations. The relocation costs only \$248 plus field time versus \$794 plus field time for a brand-new system.

There would be ways to reduce the amended budget so that it falls at or slightly below the already approved bottom line - such as reducing the number of new systems from four (4) to three (3). There is also the possibility that there would be no need to replace any of the existing sensors this year, which was built into the budget as "Consumables" in the amount of \$600. Should replacement of existing sensors no be needed, the \$600 "Consumables" budget item could be used to purchase and install a new system.

Earlier in the year, Village Staff wrote a story in a bi-monthly newsletter, to request volunteers to join the Groundwater Monitoring Program. The response rate to the request for volunteers has been excellent, and we have identified six (6) new locations which fill in gaps which exist in the current monitoring array. These six (6) new Wellntel sites would likely have monitors installed by October. For future reference, there would still be another five (5) locations remaining that Wellntel would like to automate. These sites would be relocations of existing systems, which is the simpler and cheaper method of installation. Two (2) of the five (5) relocations are for sites where the owners do not want Wellntel to access their Internet. Two (2) more sites would be relocations of monitors that currently have no Internet connection, so cannot be automated, and the last is a commercial location where, for security reasons, the monitor cannot access the site's Internet.

Staff would seek willing Village residents in specific locations in the future, but not until 2021. At that point, the Groundwater Monitoring Program should be fully automated.

FISCAL IMPACT:

REVIEWED BY: [Signature]
Village Deputy Treasurer

Initial Project Costs: Not greater than \$542
Future Ongoing Costs: Per contract
Physical Impact (on people/space): Better understanding of hydrogeology
Residual or Support/Overhead/Fringe Costs: Per contract
