Administrator Healy discussed the proposed project and how it had received approval at the Plan Commission level. Concerns regarding the septic system were brought up by the Plan Commission. It was further discussed that the Village does not have jurisdiction in this regard and the County Sanitarian provided written documentation that those statements regarding the permissibility of the expansion of the septic system also did not come from his Office which is the permitting governmental body.

Jeff Holmes, Germantown School District Superintendent, Mr. Holmes responded to President Jeffords comment that the County would have been the one to determine the septic system.
